## ABOUT THE GLOBAL EXCHANGE

### Chief Executives for Corporate Purpose's (CECP) Global Exchange

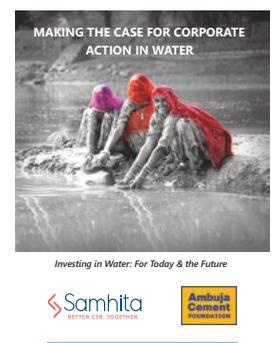

(GX) is an international network of leading organizations that seek to advance the corporate sector as a force for good around the world. With partners in 15+ countries around the world, the GX serves companies by building a body of knowledge on locally relevant corporate citizenship best practices through information sharing, and collaborative research. The GX acts as a catalyst to enhance and advance corporate social investment strategies.

### Global Exchange South Africa Country Partner Triologue

Triologue's **Business in Society Handbook** delivers comprehensive and reliable data and thought leadership on corporate social investment (CSI), while also responding to the increasingly holistic role of business within society, including but not bound by the concept of CSI. In the 2018 edition of the report, Triologue provides an update on South Africa's energy and climate legislation including the country's **Integrated Resource Plan** and the **National Climate Change Bill**. Download the handbook on Triologue's website: <https://trialogue.co.za/>

### Global Exchange India Country Partner Samhita

**Making a Case for Corporate Action in Water**, a report by Samhita and Ambuja Cement Foundation (ACF), highlights the catalytic role that water can play in development and lays out the imperative for corporate action in water through investment, collaboration and collective impact. In the report, the Samhita-ACF team maps corporate activity in the water sector across corporate social responsibility, sustainability and shared value and profiles successful initiatives in the water sector. Download the report on Samhita's website: <http://www.samhita.org/>

### Global Exchange Mainland China and Hong Kong Country Partner SynTao

With support of SynTao's Materiality Quantitative Index database, SynTao Green Finance jointly published **ESG Data in China: Recommendations for Primary ESG Indicators** report, in partnership with the UN's Principles for Responsible Investment. This report sought to examine existing corporate mandatory environmental, social and governance (ESG) disclosure practices in China and overseas, and ultimately provide recommendations for China's future mandatory ESG disclosure framework. These recommendations intend to inform regulators in China's capital market and domestic stock exchanges. Download the report from <https://www.unpri.org/>

### Global Exchange Canada Country Partner: The Conference Board of Canada

In **It's Not Easy Being Green: The Challenge of Carbon Competitiveness**, The Conference Board of Canada notes that the success of Canada's ambitious low-carbon agenda will be measured by its ability to reduce emissions and effectively manage competitiveness. The report examines three risks to competitiveness that are essential for effective policy design: ensuring common scope and stringency, managing domestic uncertainty, and mitigating carbon leakage abroad. Download the report from The Conference Board of Canada: <https://www.conferenceboard.ca/>
